## **1. Application Overview**

The Domino's Pizza App is designed to provide customers with a platform for ordering pizzas and other menu items. The website offers several features to enhance the user experience:

1. **Menu Navigation:** The website features a detailed menu with clear descriptions and images of pizzas, sides, desserts, and beverages.
2. **Customizable Orders:** Customers can personalize their pizzas by choosing from a variety of toppings, crust types, and sizes.
3. **Promotions and Deals:** The site prominently displays current promotions and deals.
4. **Jobs Section:** This section provides information about jobs at Domino's Pizza and allows potential candidates to apply online.
5. **Young Chef Class:** Parents can book a fun and educational pizza-making class for their children.
6. **Nutrition Values:** Detailed nutritional information for menu items, healthy tips, and suggestions.
7. **Stores:** Users can locate nearby Domino's Pizza stores, where each listing provides the address, contact information, and hours of operation.
8. **Large Orders:** Allow placing large orders with information on how to coordinate these orders.
9. **Birthdays and Events:** Customers can plan birthday parties and other events through a dedicated section.
10. **Contact Us:** Provides multiple ways for customers to contact Domino's Pizza.

## 2. Diagram of the Domino's Pizza App

## 2. Test Overview

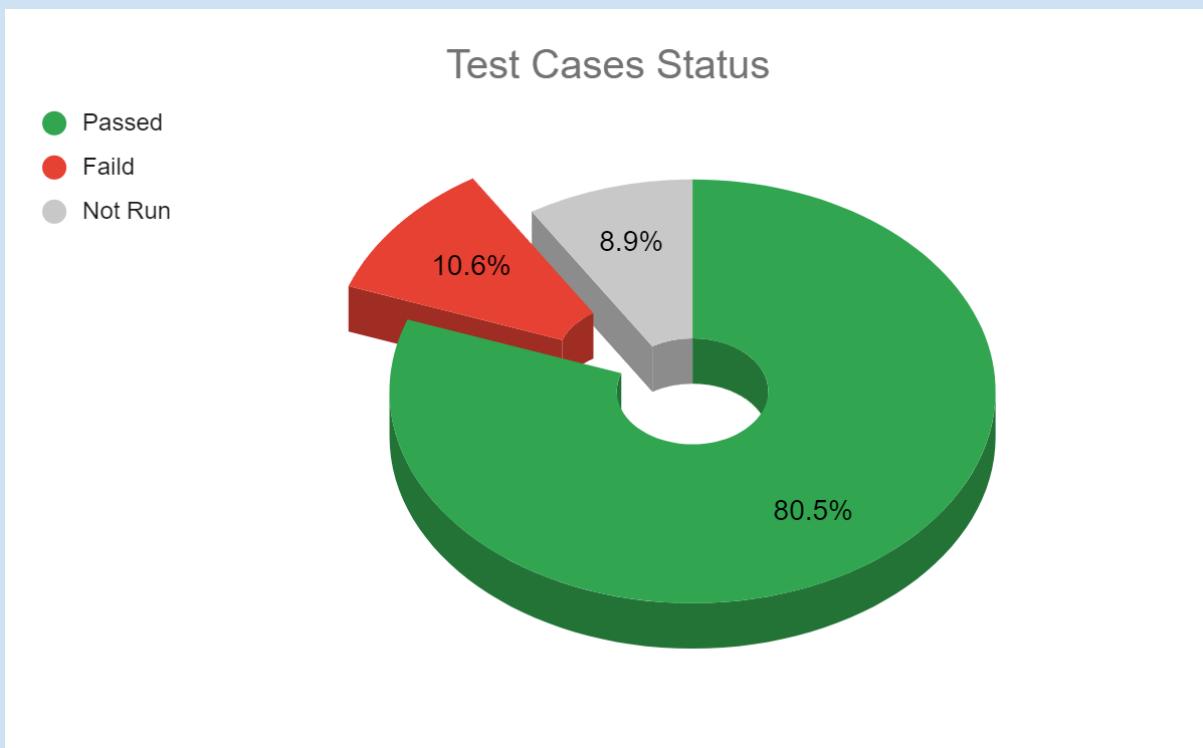

The testing process for the Domino's Pizza App aimed to ensure that all features function correctly and provide a satisfactory user experience.

The tests were carried out on the functions of the App, which refer to all the sections in the application overview, but first of all, the core purpose – ordering pizza.

Each feature was tested for usability, clarity, and functionality to meet user expectations and operational standards.

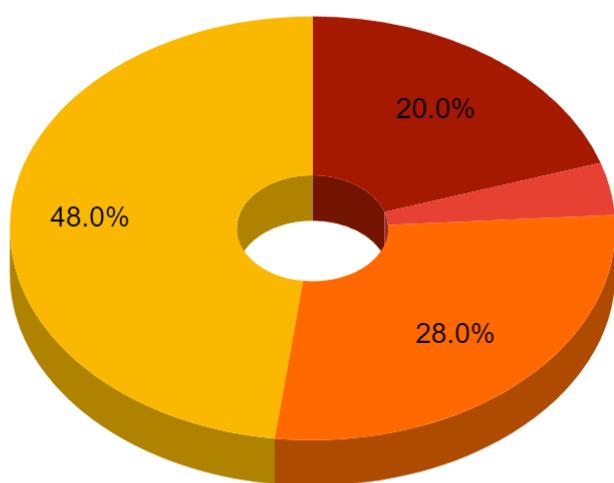

## 3. Findings and Metrics

During the testing of the Domino's Pizza website, a total of 25 bugs were identified. These bugs were categorized based on their severity and priority levels. The following summarizes the findings:

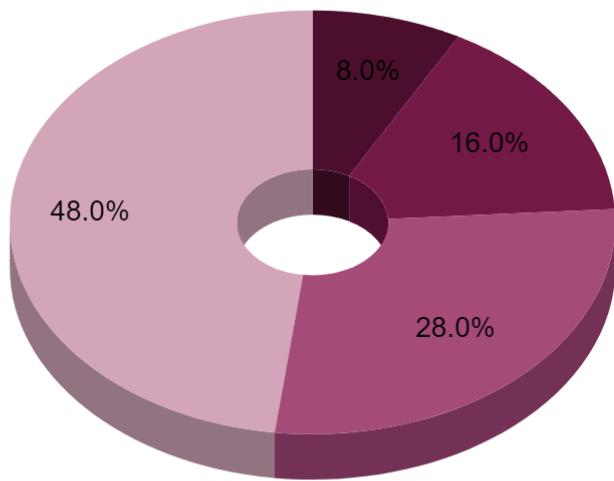

### Bug Severity

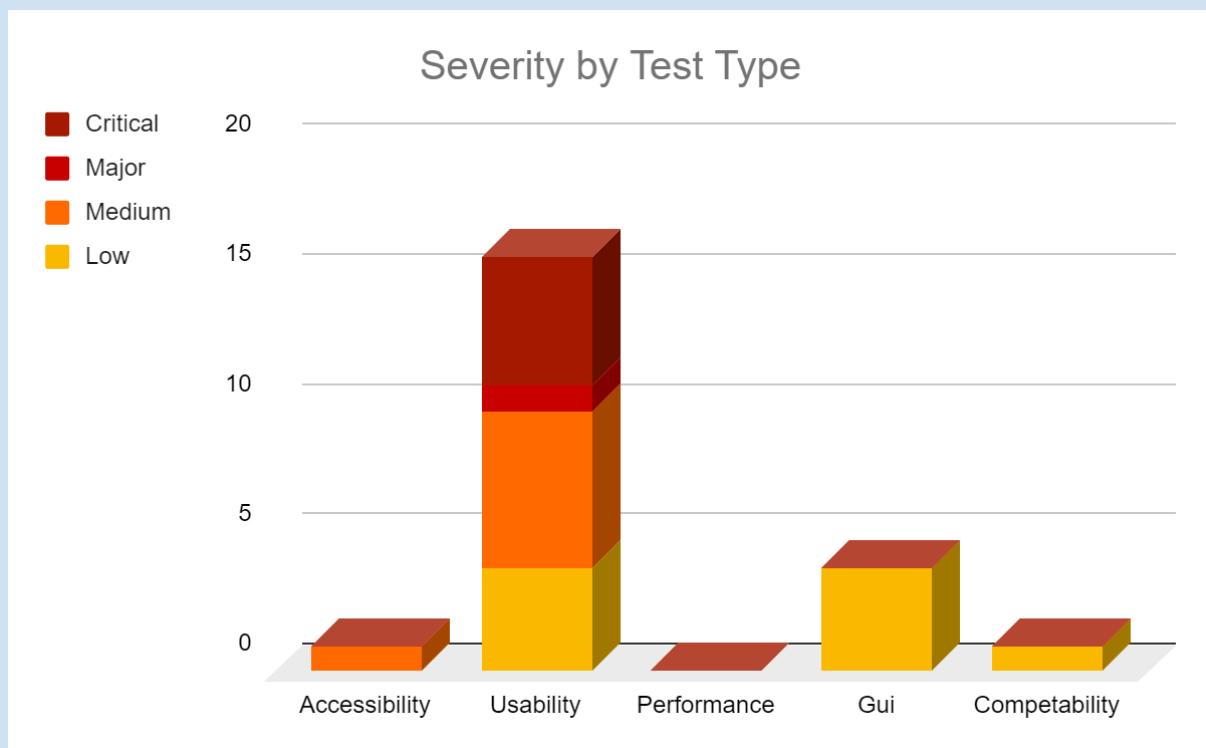

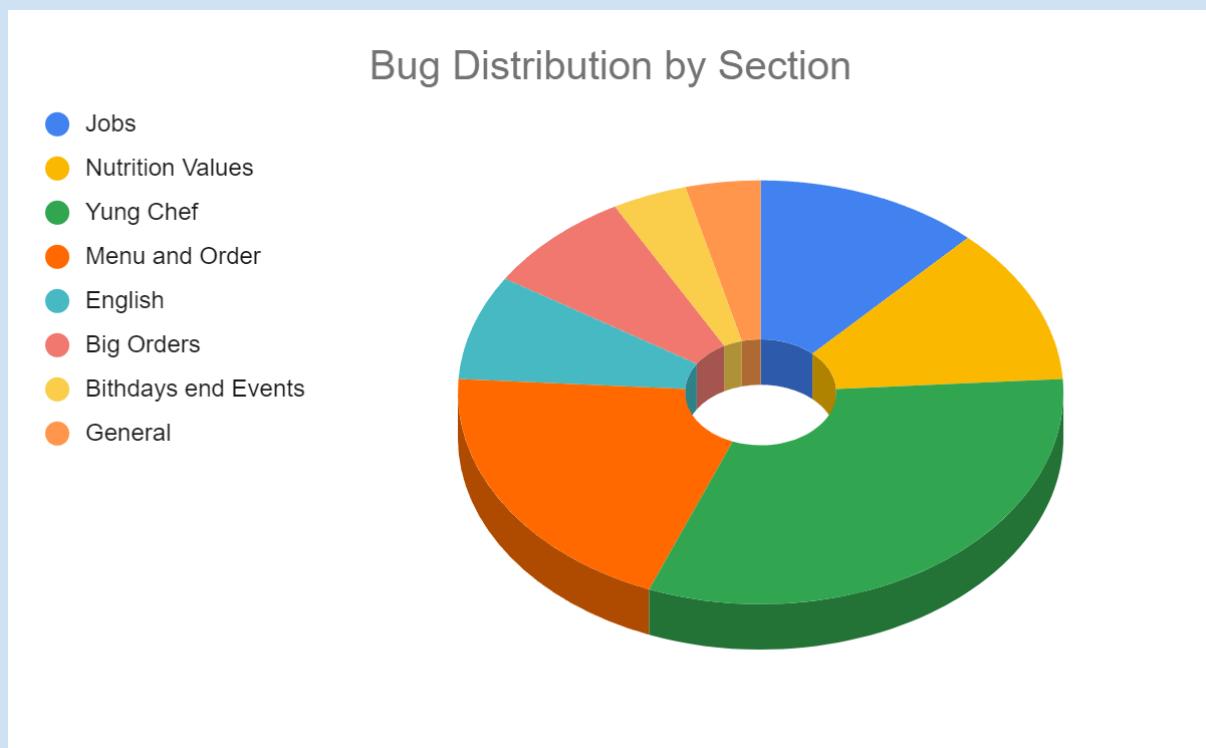

- Critical
- Major
- Medium
- Low

### Bug Priority

- Highest
- High
- Medium
- Low

## 4. Recommendations

I want to divide this section into two parts, recommendations about the bugs found on the website and recommendations for enhancing the user experience, although it is not quite a bug to fix.

For the bugs part, while several areas showed issues, the most severe bugs are those found when placing a pick-up order, the fact that when trying to look at the menu, the App automatically asks for an address, assuming that the customer wants delivery and not a pick-up order, and the fact that sometimes the pick-up button doesn't work, make it hard to place a pick-up order, which is one of the core functionality of the App. So I recommend starting with fixing this part and making it more intuitive.

For the suggestion part, I have two:

- **Allowing users to browse the menu without the need to fill in an address first.** Currently, users must enter an address before they can browse the menu. This requirement can be obstructive, particularly if users want to explore the menu without committing to an order location, such as when coordinating with friends or planning ahead.
- **More contact options as well as contact via WhatsApp.** Currently, the only way to contact the restaurant is via WhatsApp, there is also a phone number, but it is labeled to order only. I recommend adding more customer service options (such as a phone number not only for orders, and email) for those who don't have WhatsApp or can't write for any reason.

## **5. Conclusion**

At this point, I recommend waiting with the App's release.

The main core functionality of the Domino's Pizza website is allowing a seamless experience for ordering pizza, it works in delivery orders, but not in pick-up orders.

At the sub-sections – Big Orders, Birthdays and Events, Young Chef, Jobs, and Nutritional Values, 2 of the 5 don't complete their purpose or even harm the App use, at the Jobs section – doesn't allow to apply for jobs, and Birthdays and Events section – the App shut down while trying to fill the contact information form.

I recommend fixing these three high-severity bugs and then proceeding with the release of the App.

<b>Severity :</b>	S4 - Low

### Description

**Precondition:** Change the language to English

**Steps to reproduce:**

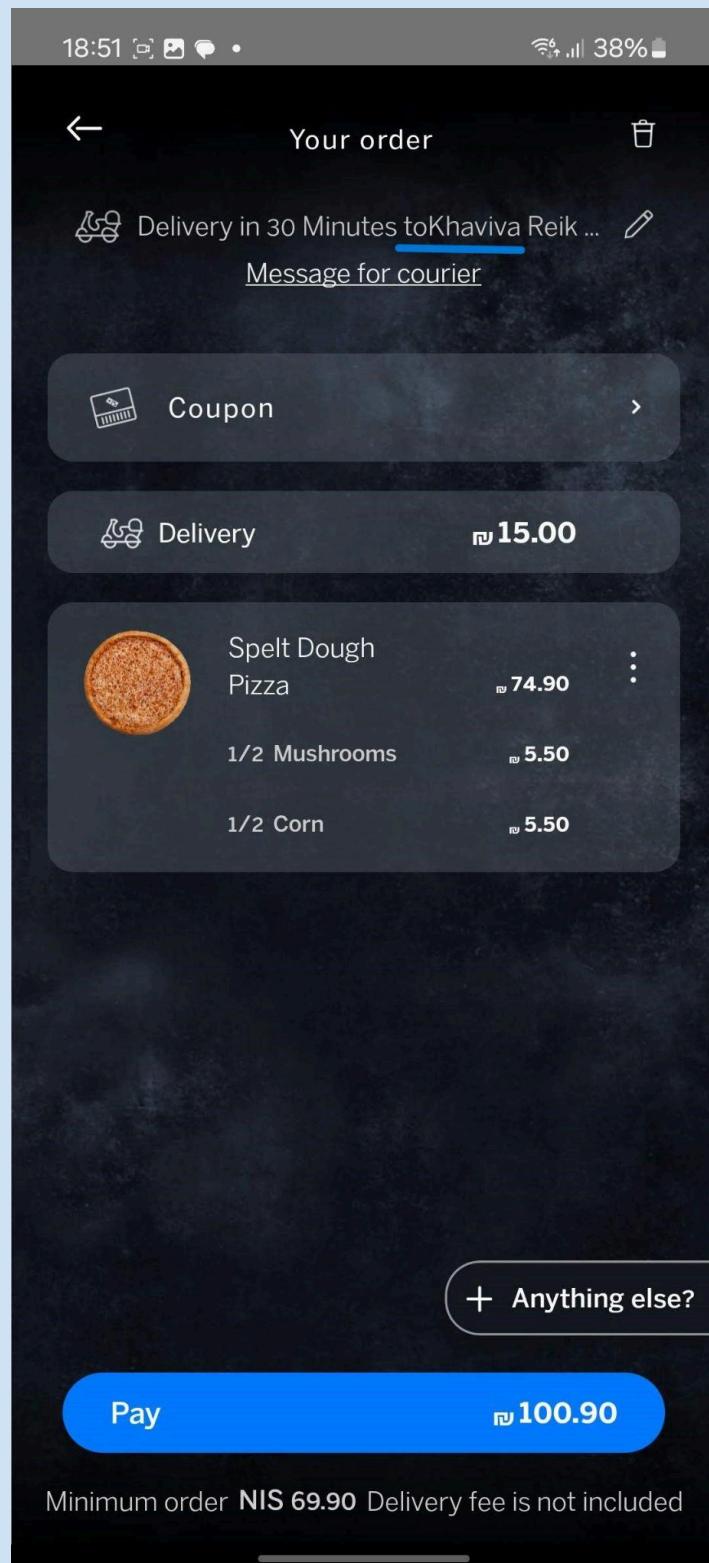

1. Go to **Home Page**
2. Click on **Menu and Order**
3. Fill in the **Address** (EX. Khaviva Reik 3, Tel Aviv-Yafo)
4. Add pizza to the **Cart** (EX. Spelt Dough pizza with half mushrooms and half corn)
5. Go to **Cart**

**Actual result:**

There is a **spelling mistake** on the cart page, there is no space between the 'to' and the address.

**Expected result:**

There shouldn't be a spelling mistake.

[DM-3] [Menu and Order | Automatically goes to delivery without an option to choose to pick up](#) Created: 26/Jun/24 Updated: 15/Jul/24

<b>Attachments:</b>	Menu and Order Delivery.mp4
<b>Severity:</b>	S2 – Major

### Description

#### Steps to reproduce:

1. Click on App Menu → Menu and Order

#### Actual result:

The application jumps to address choosing and automatically assumes that the preference is **delivery without an option to choose to pick up**.

#### Expected result:

There should be an option to choose **delivery** or **pick-up**, regardless of whether the entry is made through the home page or through the app menu.

Severity:	S4 - Low

## Description

### Steps to reproduce:

1. Go to **Menu and Order → Meals**
2. Choose **2 Large Pizzas + 2 Side Dish**
3. Choose the pizzas (2 Israeli mixes with classic dough).
4. Look at the description of the side dishes that you can choose from.

### Actual result:

In some items, the text of the description is not visible in its entirety – and there is no expand option either (by clicking or hovering for example).

The same problem appears in the **Non-Pizza Meals**

### Expected result:

The description should be **fully readable**, or at least with an option to expand it.

Attachments:	Young Chef Accessibility over button 1.mp4
Severity:	S3 - Medium

## Description

### Steps to reproduce:

1. Go to App Menu → Young Chef
2. Click on **לפרטים והרשמה**
3. Click on **שלט ה נגישות**

### Actual result:

When hovering on **שלט ה נגישות** the Accessibility button expands over the logo and makes it hard to reach.

### Expected result:

The **שלט ה נגישות** (and every other button) needs to be where it will be easy to find and click on.

**[DM-15] Young Chef | Contact Information Form | Dates that have already passed are shown in the available dates, and it is possible to choose them** Created: 27/Jun/24 Updated: 15/Jul/24

Attachments:	<a href="#">Yong Chef date 1.jpg</a> <a href="#">Young Chef date 2.jpg</a> <a href="#">Young Chef date 3.jpg</a> <a href="#">Young Chef date.jpg</a>
Severity:	S3 - Medium

### Description

#### Steps to reproduce:

1. Go to App Menu → **Young Chef**
2. Click on **לפרטים והרשמה**
3. Click on **מתי**

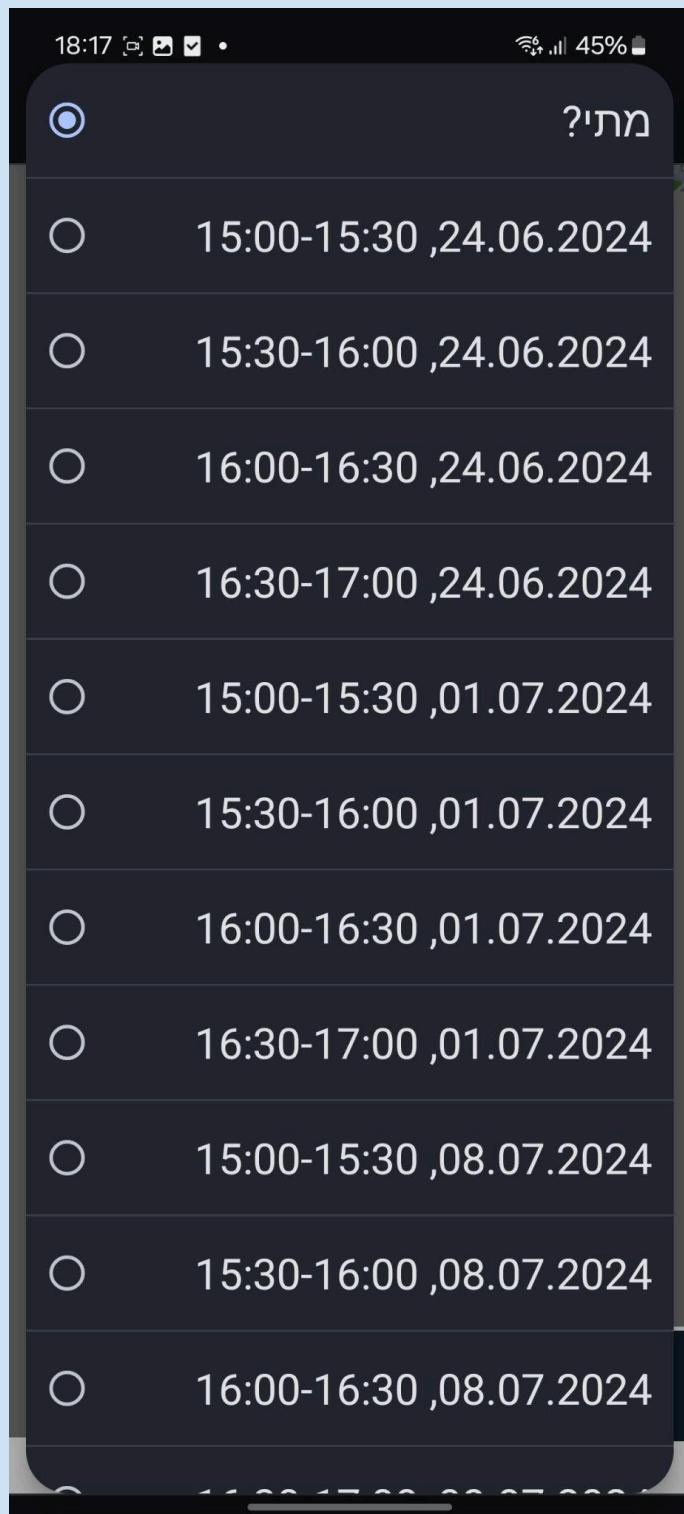

#### Actual result:

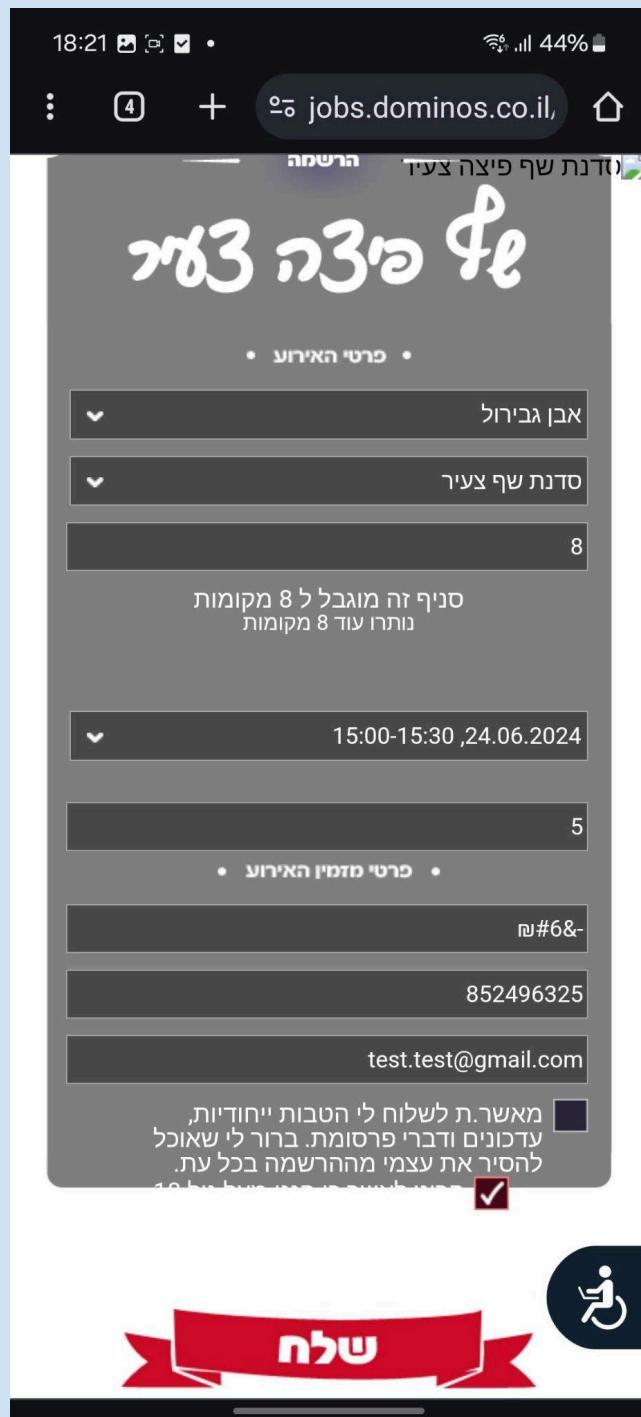

The available dates for the Young Chef class are showing and you can choose from the list.

In the list were dates that had already passed and it was possible to choose them and submit the form.

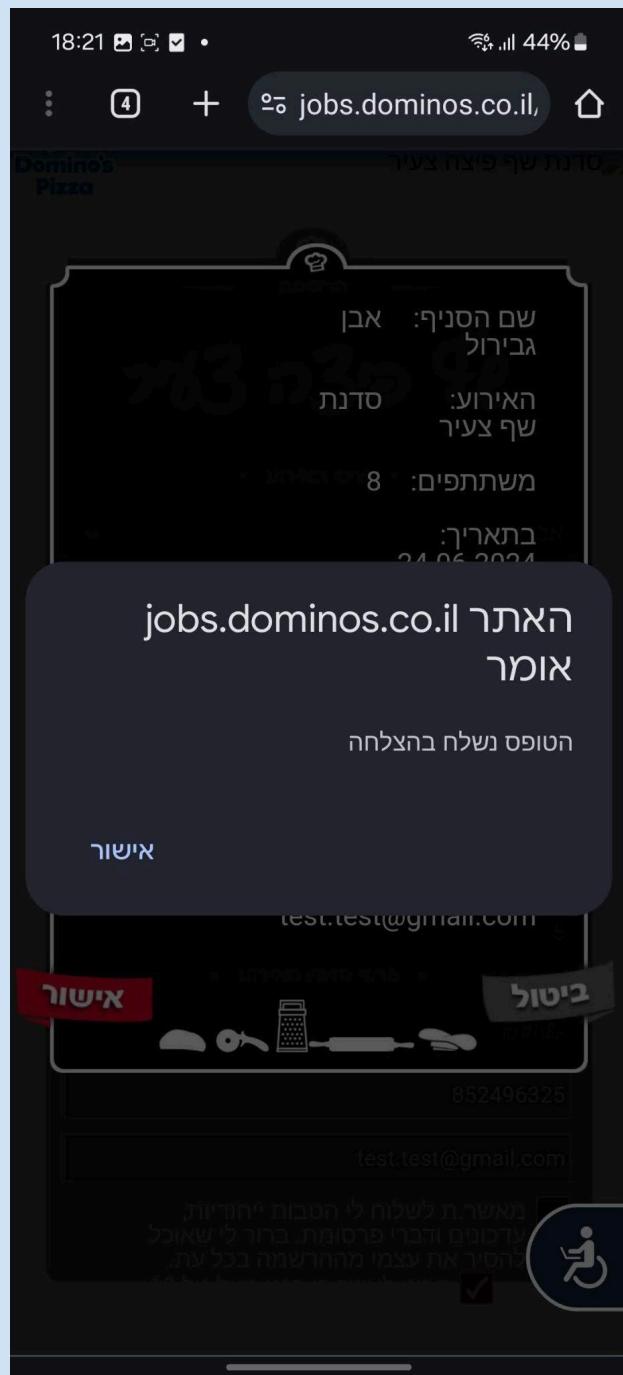

**Expected result:**

The dates are for booking a Young Chef class, so it shouldn't show passed dates and it should be impossible to choose them either.

**[DM-16] Young Chef | Contact Information Form | Text of a must fill box is hidden** Created: 27/Jun/24 Updated: 27/Jun/24

Attachments:	Young Chef Must Fill.jpg
Severity:	S3 - Medium

### Description

#### Steps to reproduce:

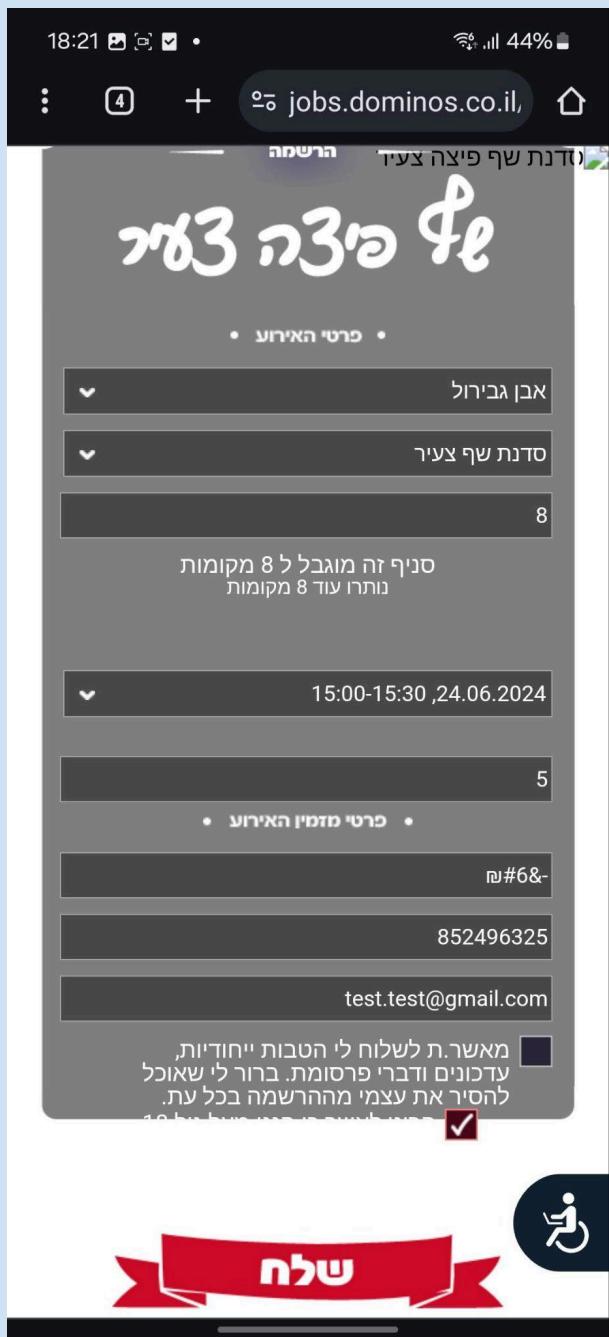

1. Go to App Menu → **Young Chef**
2. Click on **לפרטים והרשמה**
3. Fill the form
4. Click on **שלוח**
5. The form can't be submitted. because of the **must fill** box that will turn red

#### Actual result:

The text of the box is hidden and it can't be read

#### Expected result:

All the text in the App should be readable, especially if it must be agreed before submitting the form.

**[DM-17] Young Chef | Contact Information Form | No validation on phone number and name** Created: 27/Jun/24 Updated: 27/Jun/24

<b>Severity:</b>	S3 - Medium

### Description

#### Steps to reproduce:

1. Go to App Menu → **Young Chef**
2. Click on **לפרטים והרשמה**
3. Fill the form with an invalid Phone number and name (and valid information in the other boxes)

EX.

שם הסניף – אבן גבירול

הארוע – סדנת שף צעירות

משתתפים – 8

בתאריך – 24.6.2024

בשעה 15:30 – 15:00

**גיל הילדיים – 5**

שם –<sup>#6&</sup> (invalid – name should allow letter only)

מספר טלפון –<sup>(invalid – not enough numbers and invalid prefix)</sup>

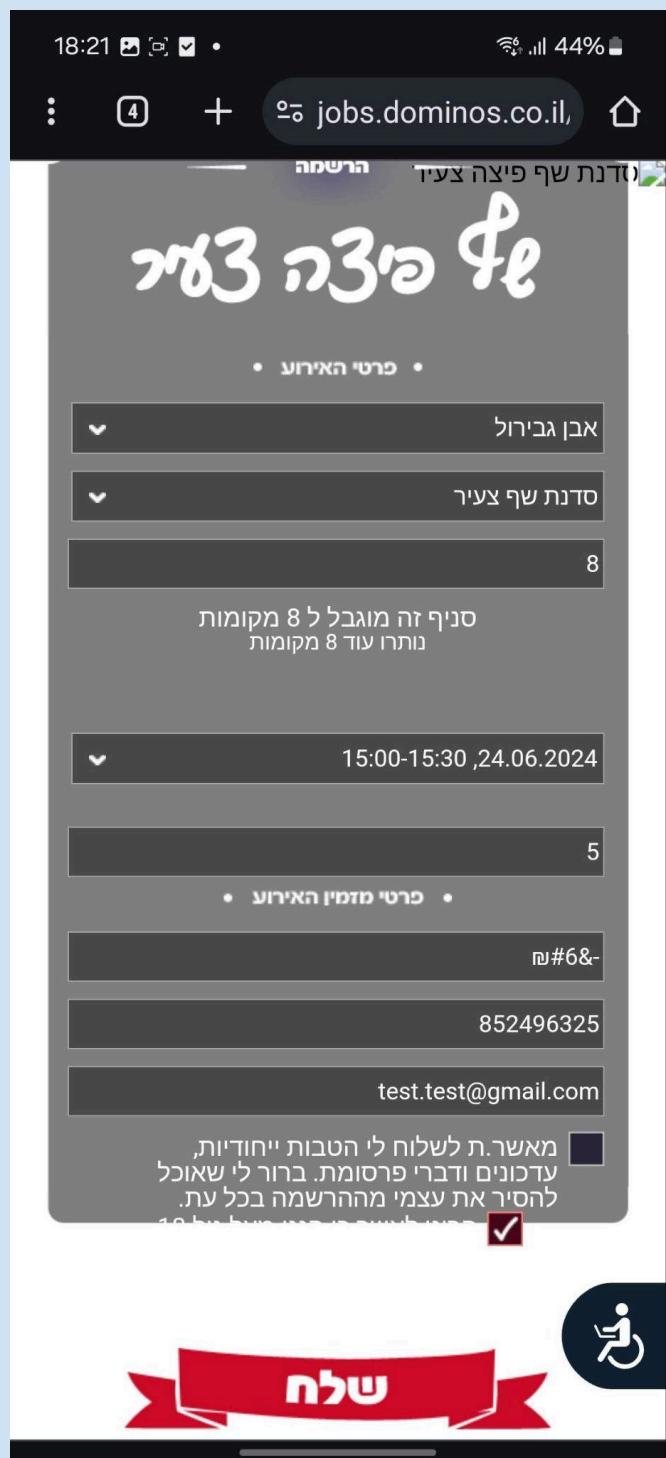

1. Click **שלח**
2. Click **אישור** on the pop up message to confirm the contact information

**Actual result:**

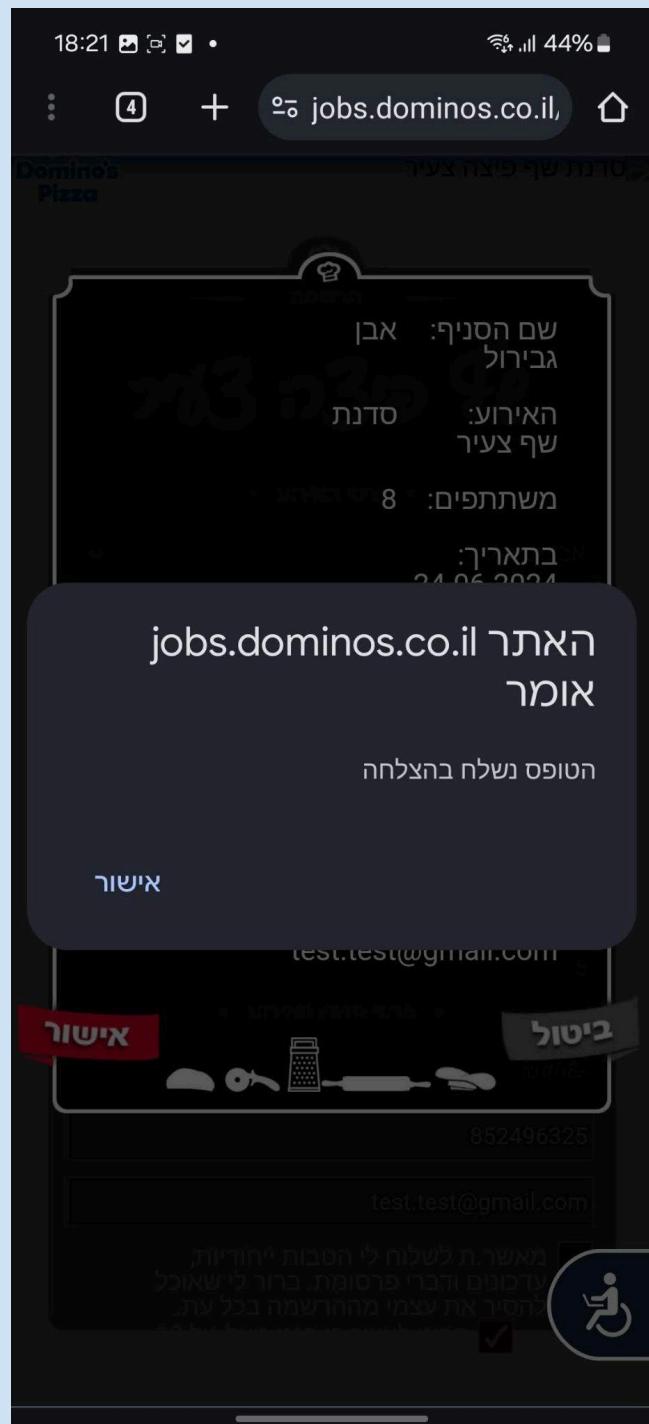

The form was submitted.

**Expected result:**

The boxes of the **name** and the **phone number** must be filled, so they should have a validation.

Attachments:	Jobs Error unclear 1.jpg Jobs Error unclear.jpg
Severity:	S4 - Low

### Description

#### Steps to reproduce:

1. Go to App Menu → Jobs
2. Click on **שליח**
3. Fill the required boxes  
EX.  
 פנו לעבודה במשמרת – ערבית  
 זמין לעבודה – בעיתיד  
 האם היות מעורב בתאונת דרכים – לא  
 האם יש לך רשות לרכב דו גלגלי בתוקף – לא  
 ותק ברכיבה על אופניים – לא  
 ניסיון בשלוחיות – לא  
 אני פנו לפחות 4 שניות בשבוע (כולל סופש) – לא

1. Click on **המשך**
2. Fill in the **Contact Information Form**

EX.

שם פרטי – שם  
שם משפחה – מלא

31.2.2008) תאריך לידה –  
8765439876 (Invalid phone number)  
עיר מגורים – עמק המומינים (Invalid city)  
סניף – אבן גבירול

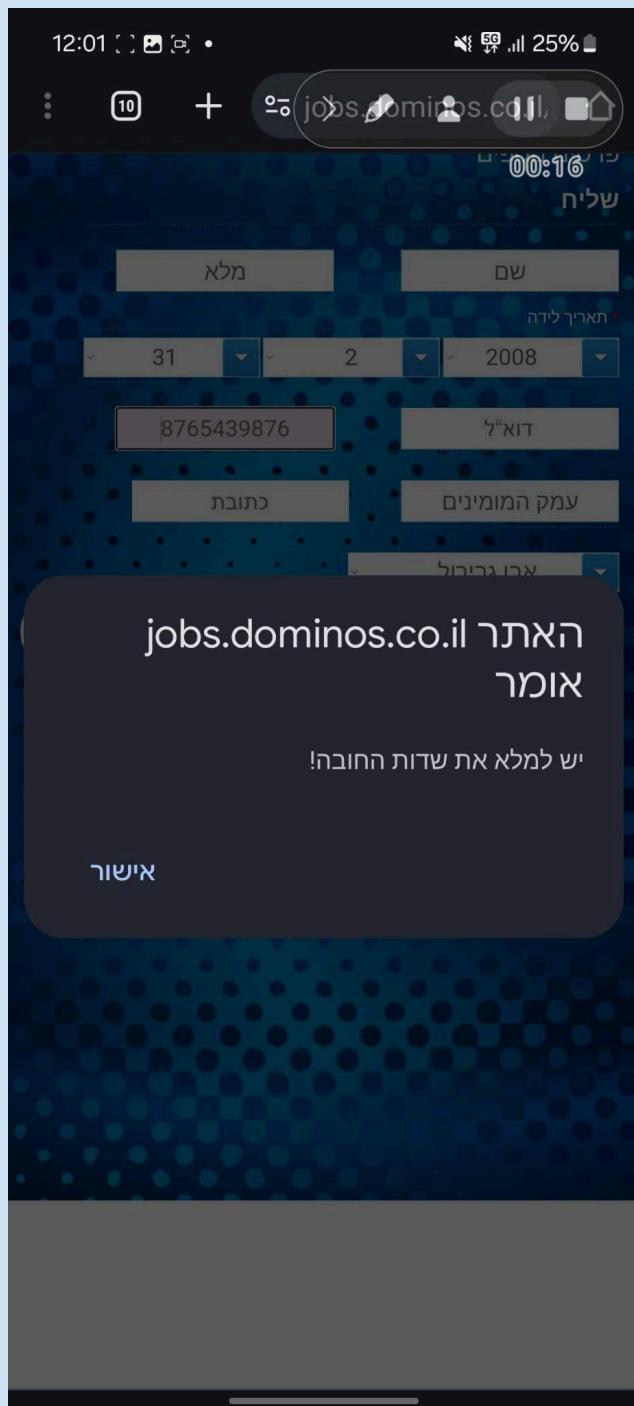

1. Click on **שליח**

**Actual result:**

An **Error pop-up message** is shown that says that **all the must-fill boxes must be filled**, although they are all filled, some of them with invalid information.

**Expected result:**

The Error message should tell which must-fill box is causing the problem and if the information is invalid or the box is simply empty.

## [DM-20] Jobs | Contact Information Form | שליח button doesn't work

Created: 11/Jul/24 Updated: 11/Jul/24

Status:	To Do
Project:	<a href="#">Domino'sPizzaApp</a>
Components:	None
Affects versions:	None
Fix versions:	None

Attachments:	Jobs button doesn't work 1.mp4 Jobs button doesn't work 2.mp4 Jobs button doesn't work 3.mp4 Jobs button doesn't work 4.mp4 Jobs button doesn't work 5.mp4 jobs button doesn't work.mp4
Severity:	S1 - Critical

### Description

#### Steps to reproduce:

1. Go to App Menu → Jobs
2. Click on **שליח**
3. Fill the required boxes  
EX.  
 פנוויל לעבוד במשמרות – ערבי  
 זמין לעבודה – בעיתיד  
 האם היות מעורב בתאונת דרכים – לא

אם יש לך רשות לרכיב דוגמאות בתוכך – לא  
ותק ברכיבת על אופנו – לא  
ניסו בשילוחיות – לא  
אני פניו לפחות 4 שניות בשבוע (כולל סופש) – לא

1. Click on **המשך**
2. Fill in the **Contact Information Form**

EX.

שם פרטי – שם  
שם משפחה – מלא  
תאריך לידה – 31.2.2008  
טלפון – 0543876954  
עיר מגורים – עמק המומינים  
סניף – אבן גבירול  
הקלד קוד – 6166

1. Click on **שליח**

**Actual result:**

The button is clicking but **nothing is happening**, although all the information seems valid.

This issue also happens if the captcha code is incorrect.

This issue also happens in the other application options.

**Expected result:**

It is not clear if the button **doesn't work at all, or just doesn't show that the information was sent**.

Either way, all the buttons should work and it should be **clear and intuitive** to understand if the action succeeded.

Original estimate:	Not Specified		
Environment:	Galaxy A52s 5G		

Attachments: Nutritional values chart.jpg

Severity: S4 - Low

### Description

#### Steps to reproduce:

1. Go to **App Menu** → **Nutritional Values**
2. Go to **Page Menu** → **Nutritional Values**
3. Look at the **Nutritional Values charts** (EX. Nutritional Values of the toppings on a pizza slice)

#### Actual result:

The chart appears cut on the left.

#### Expected result:

The charts should appear full.

The screenshot shows a mobile browser interface with the URL [resh.dominos.co.il](http://resh.dominos.co.il). The page displays nutritional information for a pizza. At the top, there is a title in Hebrew: **ערכים תזונתיים לתוספת  
במשולש פיצה**. Below the title is a table with the following data:

חיזוק מבנה		
משפחה	אישית	
21	42	קלוריות (קкал)
0	0.5	פחמיות (גרם) מתחום:
0	0	סוכר (גרם)
1	3	חלבוניים (גרם)
2	3	שמעוניים (גרם) מתחום:
1	2	חומצות שומן רוויות (גרם)
0.5 - פחוט מ-	0.5 - פחוט מ-	חומצות שומן טראנס (גרם)
5	10	colesterol (מ"ג)
0	0	סיבים תזונתיים (גרם)
32	64	נתון (מ"ג)
29	58	סידן (מ"ג)
אקסטרה מבנה
